				Theory	Practical		
0	0	4	4	0	100	0	50

Under the above subject each student will be assigned the chemical industry based or practical based project work under the supervision of teaching staff members and will submit in the form of a report. The same work will be continued in eighth semester as project-II.

For the identification of the project work any one of the options can be followed.

- (1) Student can be sent for industrial training for 2 to 4 weeks at the end of fifth semester or at the end of sixth semester before starting of seventh semester. Under the guidance of industrial person or faculty student will identify the industrial problem to work on as project work.
- (2) Industrial application oriented problem identified by faculty may be assigned as project work to student.
- (3) Faculty may assign research based work as project to student.
